More Rain After a Break

NWS Lubbock

- The region will stay dry until later this afternoon when rain may begin to move into the southwestern Panhandle.
- Today will be warmer, highs in the upper 80s/low 90s, as the sun will be out most of the day.

weather.gov/Lubbock

NWSLubbock

@NWSLubbock

Showers and storms are expected to increase in coverage behind a cold front Thursday night and early Friday. No severe storms expected but gusty winds and heavy rain likely.

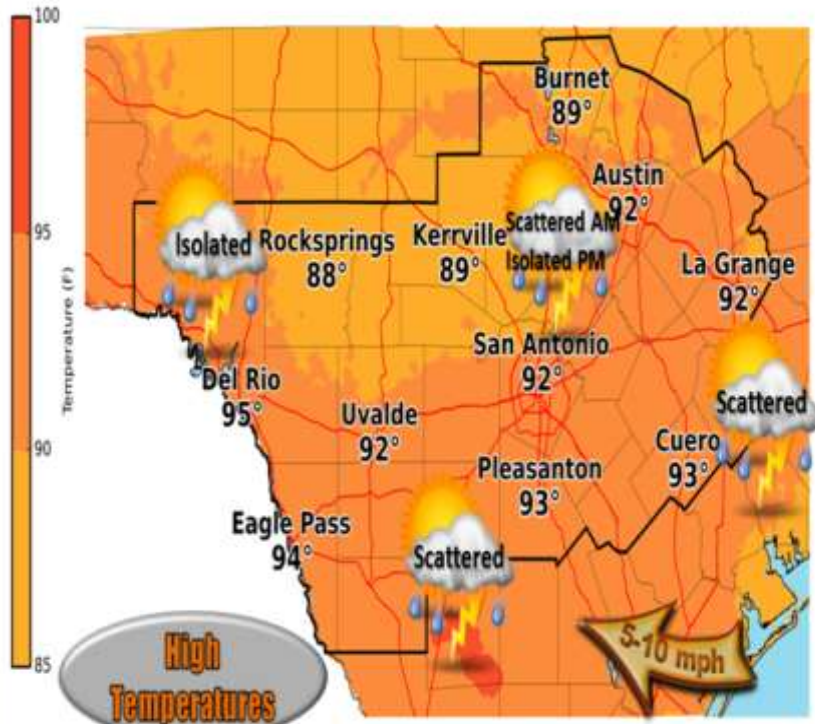

After a break more rain will be possible this afternoon and evening across the southwestern Texas Panhandle. Before then the sun will help warm temps into the upper 80s to low 90s.

Hazardous Weather

Today: Warm with Isolated to Scattered Showers and Thunderstorms

National Weather Service Austin / San Antonio

@NWSSanAntonio
weather.gov/ewx

Warm with scattered showers and thunderstorms during the morning then becoming more isolated during the afternoon, especially west and north. High temperatures will range from the upper 80s across the Hill Country to mid 90s across the Rio Grande Plains. Winds will be easterly at 5 to 10 mph.

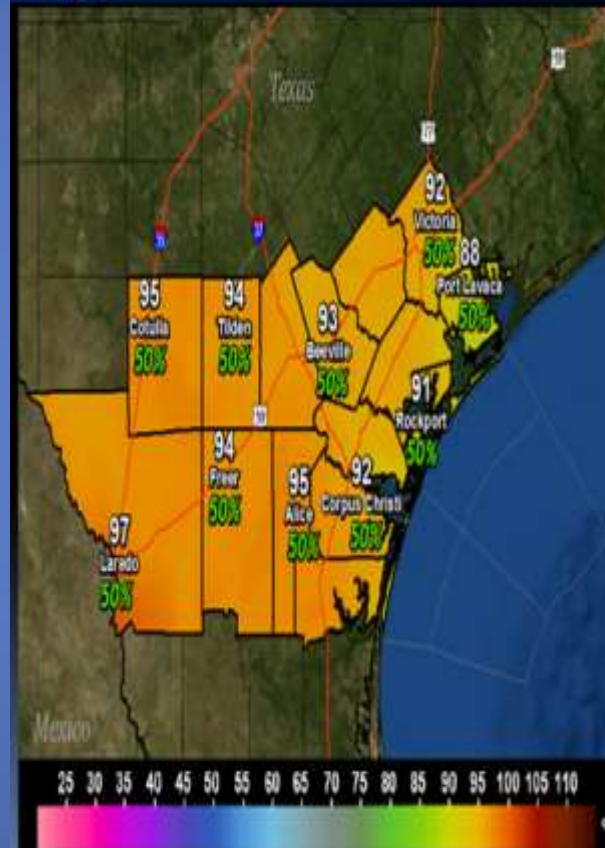

Today

Scattered Showers and Thunderstorms

Impacts:

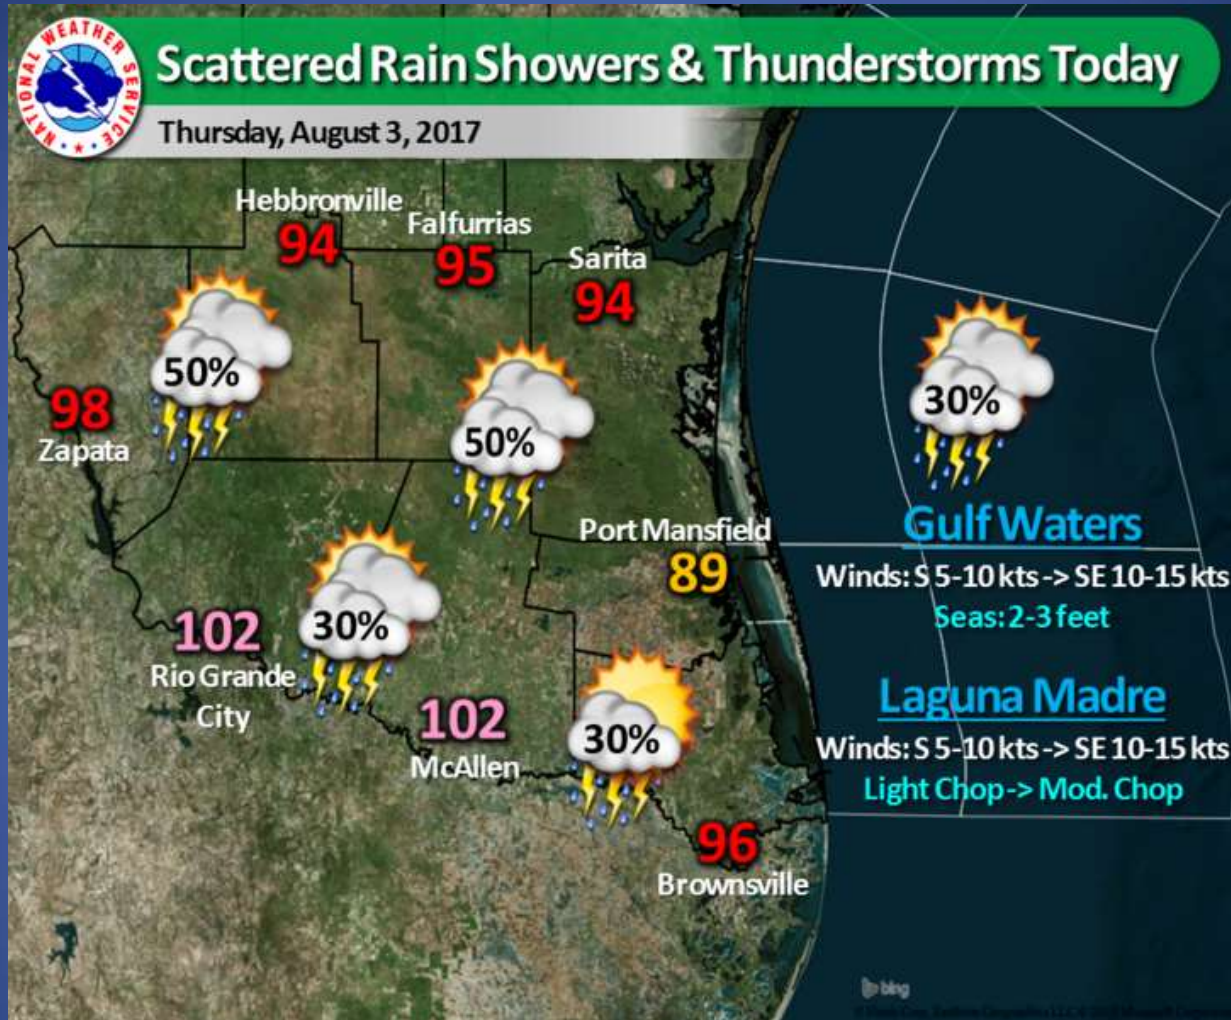

- ☐ Shower/thunderstorm coverage to increase through the day
- ☐ Few strong storms possible
- ☐ Heat indices 105°-109° Southern Coastal Bend

Rain chances increase today as an upper level disturbance moves south. Strong storms may be possible with gusty winds. Locally heavy rainfall will also be possible. Temperatures are expected to be slightly "cooler" in the 90s. Heat index values of 105 to 109 degrees will still be possible for portions of the Southern Coastal Bend.

Issued at 6:41 AM - August 3, 2017

Hazardous Weather

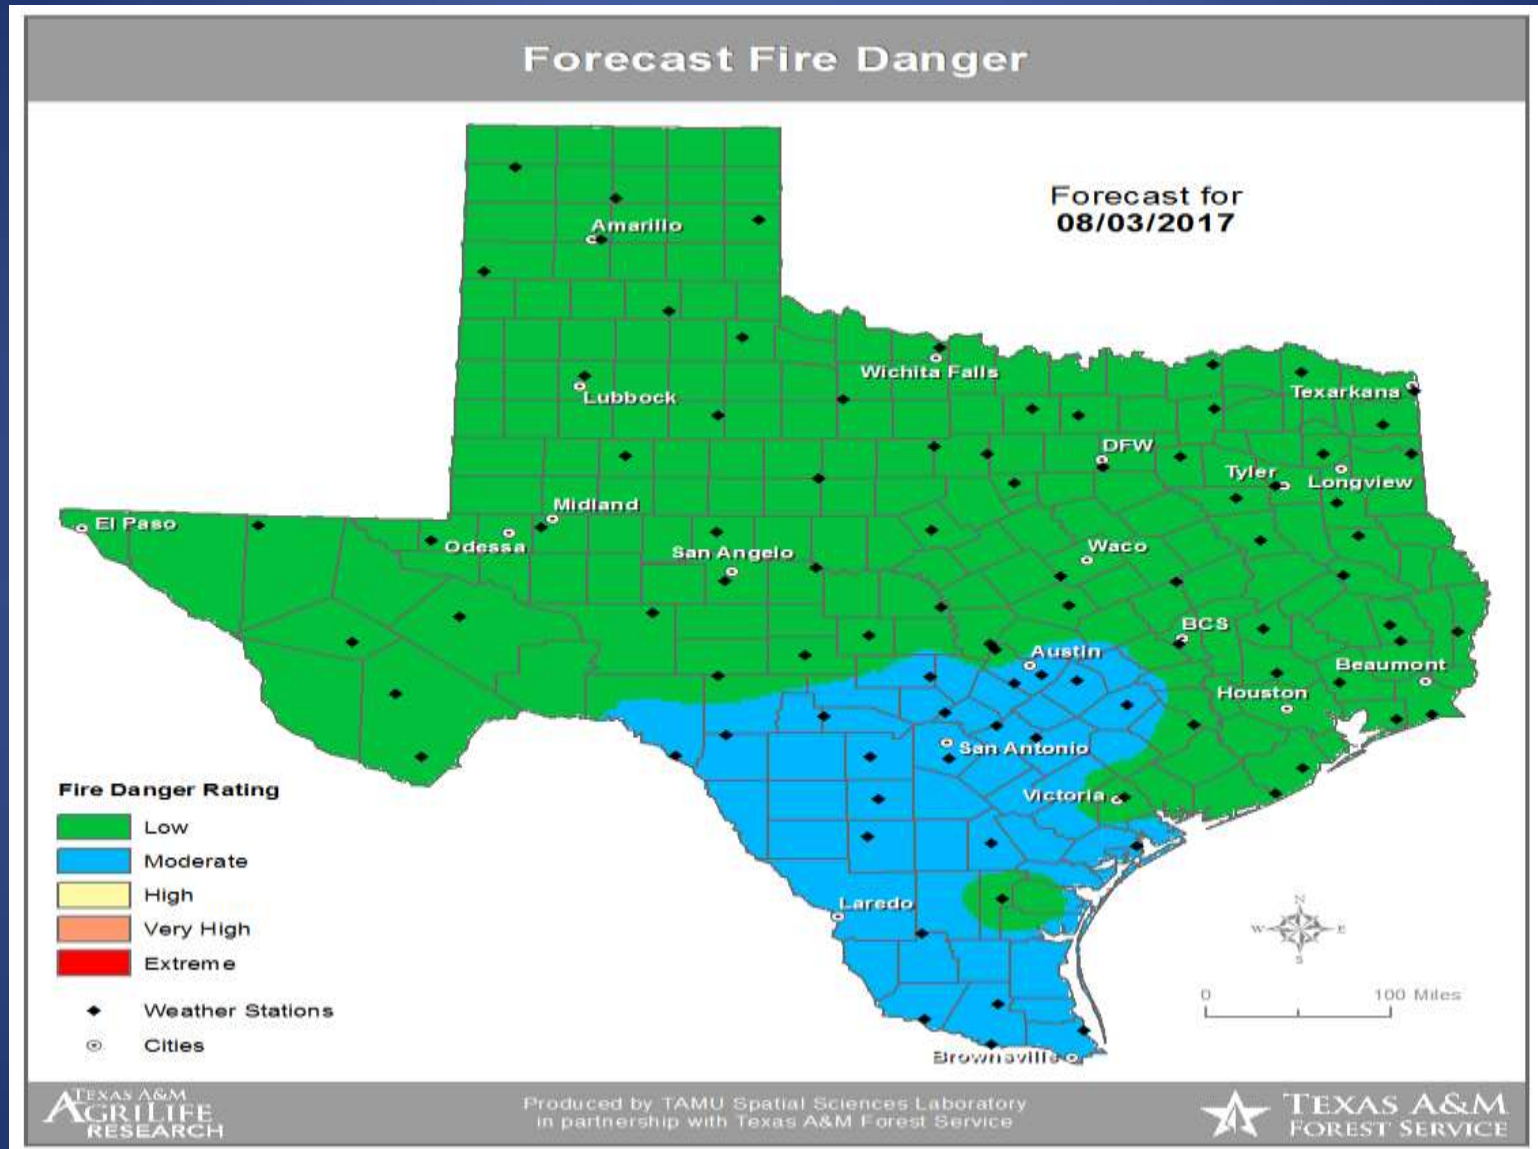

Increased moisture across deep south Texas will lead to a scattered chance for rain showers and thunderstorms today across the region, with the highest chances across the northern Ranchlands. Partly sunny to mostly cloudy skies will be anticipated with afternoon highs in the valley ranging from the middle 90s to above the century mark while clouds help keep highs in the 90s across the ranchlands. Mariners should expect an increasing chop this afternoon across the bay and gulf seas around 2 to 3 feet.

Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
08/02/17	Flood Warning	Rio Grande at Boquillas - Rio Grande Village affecting Brewster County
